REFRIGERANT SHELVING

PROFILED BACK

Our Profiled back bottle holder units are fabricated with 5052-H32 .100" thick aluminium. They are lightweight, strong and sturdy. All models come with angled shelves and cam buckles. Carefully designed with smart and functional features that are based upon 50 years of design, fabrication and installation experience.

SIMPLE. Our unique belt routing pattern holds the refrigerant bottle down and to the rear.

SECURE. Our bottle holder unit shelves are designed with an angle keeping the bottle stowed safely.

ADJUSTABLE. The top and lower shelf* can be adjusted in 2" increments.
*when applicable

SMART. Our bottom pan design gives you extra room to use a powerdrill, and is designed to bolt down on the top of the floor's strengthening ribs.
