RIGID FLOORING OPTIONS FOR RAM PROMASTER 118" WB

ULTRAFLOOR

RIGID. 1/2" thick 100% recycled plastic composite. Extremely rigid floor is the most durable in its class. Long life, enduring extreme temperatures to avoid cracking and splitting. Non-porous surface is liquid resistant to eliminate bacteria and mold formation. Heavy-duty protection adds to end-of-lease resale value. For use under the harshest conditions including forklift loading.

ULTRAGRIP

ANTI-SLIP. rigid 1/2" thick 100% rubber coated composite plastic. The most anti-slip rigid floor in its class. Non-porous surface is liquid resistant to eliminate bacteria and mold formation. Heavy-duty protection adds to end-of-lease resale value with added benefit of non-slip surface.

NEW PRODUCT

STABILIGRIP

STABLE. It is one of the only dimensional stable composite floors available on the market for cargo vehicles. It is engineered to endure all climates and temperatures without bulging or buckling. StabiliGrip is extremely durable, impact resilient, moisture resistant, rot proof, and anti-slip.
