# DRAWER UNITS

Our Drawer cabinets are fabricated with 5052-H32 .100" thick aluminium. They are lightweight, strong and sturdy. All models come with our adjustable Hook and Hang system, a 1.250" inch aluminium hang rod and best of all, the door can be installed in a left or right configuration. Carefully designed with smart and functional features that are based upon 50 years of design, fabrication and installation experience.

**CONVENIENT.** Our above standard 4.5 inch high top edge has been designed with a hole pattern so you can strap your equipment down.

**STORAGE.** The large drawers are deep and can allow for a 75% extension of its overall length

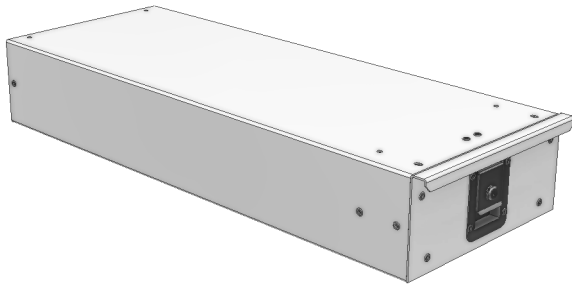

**DIVIDERS.** Our drawer dividers are bolted down to eliminate accidental blocking of the drawer. Adjustable every 2 inches

**SMART.** The bottom rear panel of our drawer modules have been designed with a 2-hole pattern to allow for easy bolt-down.

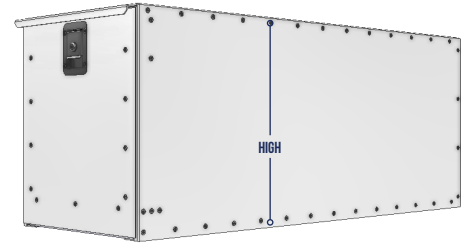

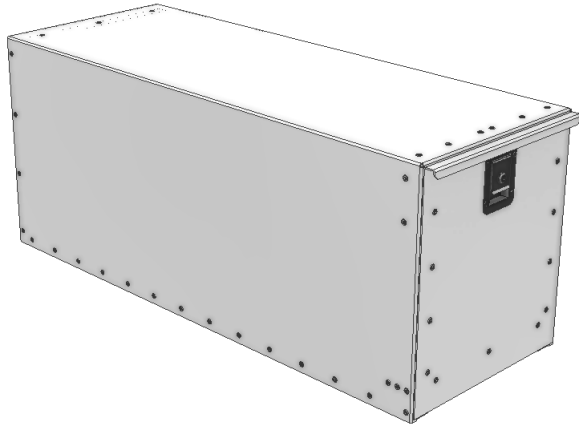

**SMOOTH.** Our unique Teflon roller system is designed for smooth and easy gliding of the large drawer.
